TISSUE and PAPER DRIVE

There is a large demand for tissues and paper at the Preschool. The school supplies tissues and paper to the students at no cost throughout the year but would like parents to consider donating a box of tissues and any spare paper on your child's behalf to go towards reducing the cost for these essential items.

We encourage the use of tissues rather than handkerchiefs, as a protective measure against the spread of disease such as influenza. All boxes that are collected will be kept at the Preschool for the benefit of your child.

Please give your tissue boxes and/or ream of A4 white or coloured paper to the Preschool staff. Your assistance in this matter will be greatly appreciated.
